RISK FACTORS AND SPECIAL CONSIDERATIONS

Standard Risk Factors

- Mutual funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the Scheme(s) will be achieved.
- As with any investment in securities, the NAV of the Units issued under the Scheme(s) can go up or down depending on the factors and forces affecting the capital markets.
- Past performance of the Sponsor and its affiliates does not indicate the future performance of the Scheme(s) of the Mutual Fund.
- HSBC Equity Fund, HSBC Income Fund and HSBC Cash Fund are the names of the Scheme(s) and do not in any manner indicate either the quality of the Scheme(s) or their future prospects and returns.
- These are among the first Scheme(s) being launched by HSBC Mutual Fund and HSBC Asset Management (India) Private Limited has no previous experience in managing a mutual fund.
- The Sponsor is not responsible or liable for any loss or shortfall resulting from the operation of the Scheme(s) beyond the initial contribution of Rs. 1,00,000 (Rupees One Lakh only) made by it towards setting up the Mutual Fund.

Scheme Specific Risk Factors

Equity or Equity related Securities:

- Equity instruments by nature are volatile and prone to price fluctuations on a daily basis due to both macro and micro factors. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. The inability of the Scheme(s) to make intended securities' purchases due to settlement problems could cause the Scheme(s) to miss certain investment opportunities.
- The Scheme(s) may also use various derivative and hedging products from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unitholders' interest.

Fixed Income Securities:

- *Price-Risk or Interest Rate Risk:* Changes in interest rates may affect the NAV of the Scheme(s) as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise.
- *Liquidity or Marketability Risk:* This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer.
- *Credit Risk:* Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk, corporate debentures are sold at a yield above those offered on Government Securities, which are sovereign obligations.
- *Reinvestment Risk:* This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme(s) are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

Special Considerations

ADRs / GDRs / Foreign Securities: It is the AMC's belief that investment in ADRs / GDRs / foreign securities offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI / RBI from time to time.

To the extent that the assets of the Scheme(s) will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee.

Derivatives: The Fund may use derivative instruments like Stock Index Futures, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines.

Stock Lending: The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

DUE DILIGENCE BY THE AMC

The AMC has exercised due diligence while preparing the Offer Document and has submitted Due Diligence Certificate to SEBI in the prescribed format, and the same has been reproduced in the full Offer Document.

Investment Approach and Risk Control

HSBC Equity Fund (HEF)

The aim of the HSBC Equity Fund is to deliver above-benchmark returns with due regard to capital conservation by providing long-term capital growth from an actively managed portfolio, mainly comprising companies registered in and / or listed on a regulated market of India, or having a significant presence in India. The Scheme will invest across a range of market capitalisations with a preference for medium and large companies.

A top down and bottom up approach will be used to invest in equity and equity related instruments. Stock specific risk will be minimised by investing only in those companies that have been analysed by the Fund Management team at the AMC. Risk will also be reduced through adequate diversification of the portfolio. Diversification will be achieved by spreading the investments over a range of industries / sectors.

HSBC Income Fund (HIF)

The Short Term Plan will invest predominantly in debt and money market instruments where interest rate risk is low. The Investment Plan aims to provide investors with income, with appropriate liquidity, and therefore will invest in a mix of debt and money market instruments, over varying maturities.

The AMC's view of interest rate trends will be reflected in the type and the maturity dates of instruments in which funds are invested. In pursuing such a policy it should be recognised that the best overall returns are achieved by anticipating or reacting to interest rate changes rather than aiming for the highest possible interest rates at all times.

In the Short Term Plan, exposure to instruments bearing price risk will be controlled, such that the Plan offers an appropriate mix of liquidity and returns. In the Investment Plan, investments will be made mainly into debt instruments, with an appropriate allocation to money market instruments to maintain the overall liquidity of the portfolio.

With the aim of controlling risks, rigorous in depth credit evaluation of the instruments proposed to be invested in will be carried out by the Investment Team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as long-term financial health of the issuer. The AMC will also be guided by the ratings of rating agencies such as CRISIL, CARE and ICRA or any other rating agency as approved by the regulators.

Given that the liquidity of fixed income instruments is currently limited, the AMC will try to provide liquidity by staggering maturities for various instruments, as well as holding a sufficient portion of the portfolio in more liquid government and corporate paper as well as money market securities.

HSBC Cash Fund (HCF)

Providing liquidity is of paramount importance, the focus will be to ensure liquidity while seeking to maximise the yield. An appropriate mix of money market and debt instruments will be used to achieve this.

Investment by Scheme(s) (common to all Scheme(s))

The Scheme(s) may invest a part of the portfolio in various debt securities issued by corporates and/or state and central government. Such government securities may include securities which are supported by the ability to borrow from the treasury or supported only by the sovereign guarantee or of the state government or supported by GOI / state government in some other way.

The Scheme(s) may invest in unlisted and / or privately placed and / or unrated debt securities, from issuers of repute and sound financial standing. If investment is made in unrated debt securities, the approval of the Board of the AMC and the Trustees or the Investment Management Committee (within the broad parameters approved by the Board of the AMC and the Trustees) shall be obtained, as per the Regulations.

The Scheme(s) may invest in other Scheme(s) managed by the AMC or in the schemes of any other mutual fund, provided such investment is in conformity with the investment objectives of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme(s) may participate in securities lending as permitted under the Regulations.

Portfolio Turnover (common to all Scheme(s))

Portfolio turnover is defined as the aggregate of purchases and sales as a percentage of the corpus of the Scheme during a specified period of time. The Scheme(s) being open-ended schemes, it is expected that there would be a number of subscriptions and redemptions on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

Investment Decisions Procedure (common to all Scheme(s))

The Fund Manager of each Scheme is responsible for making buy / sell decisions in respect of the securities in the respective Scheme(s)' portfolios.

The Board of the AMC has constituted an Investment Management Committee that will review all investments made, including investments in unrated debt instruments. The approval of unrated debt instruments will be based on parameters laid down by the Board of the AMC and the Trustees. The details of such investments will be communicated by the AMC to the Trustees in their periodical reports along with a disclosure regarding how the parameters have been complied with. The Committee will also review the performance of the Scheme(s) and general market outlook and formulate the broad investment strategy at their meetings.

It is the responsibility of the AMC to ensure that the investments are made as per the internal / Regulatory guidelines, Scheme investment objectives and in the best interest of the Unitholders of the respective Scheme(s). The Fund will follow internal investment guidelines as approved by the Board of the AMC and the Trustees from time to time. All internal guidelines are subject to change and may be amended from time to time in the best interest of the Unitholders. The amendments will be approved by the Board of the AMC and the Trustees of the Mutual Fund.

The Chief Investment Officer will make presentations to the Board of the AMC and the Trustees periodically, indicating the performance of the Scheme(s). In case of the HSBC Equity Fund, performance will be compared to the BSE 200 Index. The performance of the HSBC Income Fund and the HSBC Cash Fund will be reviewed by the Boards with reference to the CRISIL Composite Bond Fund Index and the CRISIL Liquid Fund Index respectively. However, the Scheme(s)' performance may not be strictly comparable with the performance of the Indices due to the inherent differences in the construction of the portfolios.

The Chief Investment Officer will bring to the notice of the AMC Board, specific factors if any, which are impacting the performance of any individual Scheme. The Board on consideration of all relevant factors may, if necessary, give appropriate directions to the AMC. Similarly, the performance of the Scheme(s) will be submitted to the Trustees. The Chief Investment Officer will explain to the Trustees, the details on the Schemes' performance vis-à-vis the benchmark returns.

The AMC will keep a record of all investment decisions.

Investments by the AMC in the Scheme(s) (common to all Scheme(s))

The AMC may invest in the Scheme(s) in the Initial Offer Period or thereafter at any time during the continuous offer period subject to the SEBI Regulations. Product Add Ons

Systematic Investment Plan (SIP)

The Unitholders of HSBC Equity Fund and HSBC Income Fund - Investment Plan can benefit by investing specific rupee amounts periodically, for a continuous period. SIP allows the investors to invest a fixed amount every month or quarter for purchasing additional Units of the above Scheme(s) at NAV based prices. **SIP is available for investors on the commencement of on-going sale and redemption under the Scheme(s) after the Initial Offer Period.**

SIP is not available in HSBC Income Fund - Short Term Plan and HSBC Cash Fund.

The Mutual Fund may have arrangements with organisations to accept group SIPs whereby the employees of such organisations can opt for a direct deduction from their salary and invest in the Scheme(s) of the Mutual Fund in which the SIP facility is available. The Mutual Fund will decide the terms and conditions on which such group SIPs would be made available.

The AMC reserves the right to have differential load structures for investors who opt for the SIP.

Systematic Encashment Plan (SEP)

Unitholders have the benefit of enrolling themselves under the Systematic Encashment Plan. The SEP allows the Unitholder to withdraw sums of money each month / quarter from his investments in the Scheme(s). SEP is ideal for Unitholders seeking a regular inflow of funds for their needs in a tax efficient manner. It is also ideally suited to retired persons or individuals who wish to invest a lumpsum and withdraw from the investment over a period of time.

Under SEP investors can opt for withdrawal of a fixed amount or the capital appreciation on their investment.

Under the Fixed Amount Option, the investor specifies the fixed amount that he would like to receive on a regular basis irrespective of the gain / loss on the Fund in the specified period. The minimum amount which the Unitholder can withdraw is Rs.1000/- (Rupees One Thousand Only) and in multiples of Re.1 (Rupee One Only) thereafter. The Option is available to investors under the Growth Options of HSBC Equity Fund and HSBC Income Fund - Investment Plan only.

The Capital Appreciation Option allows the automatic redemption of the incremental amount i.e. appreciation on the original investment. For example, if the appreciation on the initial investment in a period is Rs. 5000/- and Rs. 4500/- in the next period, then the investor would receive only the appreciation i.e. Rs. 5000/- and Rs. 4500/- in the respective periods. Unitholders should note that in the event of there being no capital appreciation, no withdrawal / payment would be effected.

The Capital Appreciation Option is available in the Growth Option of HSBC Income Fund - Investment Plan only.

During the IPO, investments under SEP would attract no load.

The AMC reserves the right to have differential load structures for investors who opt for the SEP.

Systematic Transfer Plan (STP)

Investors can opt for the Systematic Transfer Plan by investing a lumpsum amount in the Growth Option of HSBC Income Fund -Investment Plan and providing a standing instruction to transfer sums at monthly intervals into HSBC Equity Fund. Investors could also opt for STP from an existing

Transfers would be effected as of the first Business Day of every month. Transfers must be for a minimum amount of Rs.1,000/-. Investors could also choose to terminate the Plan by giving a written notice at least 14 days in advance to the Registrar.

During the IPO, investments under STP would attract no load.

The AMC reserves the right to have differential load structures for investors who opt for the STP.

Redemptions so carried forward will be priced on the basis of the Applicable NAV (subject to the prevailing load) of the Business Day on which redemption is made. Under such circumstances, to the extent multiple redemption requests are received at the same time on a single Business Day, redemptions will be made on pro-rata basis, based on the size of each redemption request, the balance amount being carried forward for redemption to the next Business Day(s). In addition, the Trustees reserve the right in their sole discretion, to limit redemptions with respect to any single account to an amount of Rs. 1 crore (Rupees One Crore Only) in a single day.

The section provides for a lock-in period of one year and if the newly acquired shares are sold or transferred during the period, the capital gains earlier claimed exempt, would become taxable in the year of sale of the newly acquired shares.
- As per Section 54EC of the Act, capital gains arising from transfer of a long term capital asset, shall be exempt from tax, if such capital gains are invested within 6 months of the date of transfer in bonds which are redeemable after 3 years issued by National Bank of Agricultural and Rural Development, National Highways Authority of India or Rural Electrification Corporation Limited. However, if the amount invested in bonds is less than the capital gains realised only proportionate capital gains would be exempt from tax. If the bonds so acquired are transferred or converted into money or any loan or advance is taken on security of such bond, within 3 years from the date of its acquisition, the amount of capital gains arising from transfer of original asset which was not charged to tax, will be deemed to be the income by way of long term capital gains of the previous year in which bonds are transferred or otherwise converted into money. Where such bonds are also eligible for rebate of income-tax under section 88 of the Act, the said rebate will not be allowed

if the exemption is availed under Section 54EC of the Act. Policy on Offshore Investments by the Scheme(s) and the Plans thereunder

SEBI vide its Circular MFD / CIR No.4 / 052 / 99 dated 1 September, 1999, Circular MFD / CIR No.5 / 062 / 99 dated 30 September, 1999 and Circular MFD / CIR 17 / 419 / 02 dated 30 March, 2002, permitted mutual

funds to invest in ADRs / GDRs issued by Indian companies, foreign debt securities, government securities of foreign countries, units / securities issued by overseas mutual funds or unit trusts, subject to the terms and conditions prescribed, up to a specified percentage of net assets managed as on the date of last audited balance sheet subject to maximum of US\$50 million.

It is the Investment Manager's belief that foreign securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. The Fund would look to invest in foreign securities in order to diversify the portfolio in terms of credit quality and enhance returns by taking advantage of interest rate movements in global markets, which may or may not be in sync with the Indian interest rate cycle. The Fund will look to identify and capture profitable opportunities as and when they arise. However, such investments also entail additional risks. Such investment opportunities may be pursued by the Investment Manager provided they are considered appropriate in terms of the overall investment objectives of the Scheme(s). The Scheme(s) may then, if necessary, seek permission from SEBI and RBI to invest abroad in accordance with the investment objectives of the Scheme(s) and in accordance with any guidelines issued by SEBI / RBI from time to time.

Since the Scheme(s) would invest only partially in foreign securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme(s).

Offshore investments will be made subject to any / all approvals and conditions thereof as may be stipulated by SEBI / RBI being fulfilled and provided such investments do not result in expenses to the Fund in excess of the ceiling, if any, on expenses prescribed by SEBI for offshore investment, and if no such ceiling is prescribed by SEBI, the expenses to the Scheme(s) shall be limited to the level which, in the opinion of the Trustees, is reasonable and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.
